

# QUALITY AND ENVIRONMENTAL POLICY

YUSHIRO MÉXICO, we are an organization located in Silao, Guanajuato, dedicated to the development, manufacture and commercialization of fluids and oils for machining processes, anti-corrosion oils and chemical products for surface treatment; where we promote research for the **development of new products that meet quality standards and that support the conservation of the environment** through the reasonable and moderate use of natural resources. We are **committed to meeting the legal and regulatory requirements** for the **satisfaction of our customers** and other relevant stakeholders; Furthermore, we **promote the continuous improvement of our integrated management system**, environmental performance to **prevent the environmental impacts** that may be generated, as well as awareness of good environmental practices that prevent pollution; **We promote with our stakeholders** an environmental culture that favors the preservation of the environment, **the sustainable use of resources**, the mitigation and adaptation to climate change and the **protection of biodiversity and ecosystems**. We establish a process-based approach to achieve objectives where we constantly monitor their achievement.
